black dot air

*Office swivel chair with
3D knitted upholstery*

A classic design that keeps up with the times.

The new black dot air.

Thanks to its unmistakable look and impressive comfort, the black dot product family has long been a Sedus classic. The new black dot air fits seamlessly into the family and has proven itself to be an innovative new version of this striking design.

With its novel 3D knitted upholstery, AIR KNIT, which offers the ideal symbiosis of pleasant haptics and a modern look, black dot air is guaranteed to impress at the very first glance. The design also boasts all the comforts which distinguish the black dot family, in particular the flexible backrest suspension which supports the back even in turning and sideways movements.

Unpretentious.

black dot air is also available without armrests, this option offers even more freedom of movement.

Classic.

The frame and leg frame are made of stable plastic and come in either black or light grey.

Unmistakeable.
Good sitting
in a nutshell.

Feels as good as it looks.

The new 3D knitted upholstery AIR KNIT.

The backrest of the black dot air features the innovative 3D knitted upholstery, AIR KNIT, which combines the advantages of a mesh membrane with those of full upholstery. AIR KNIT creates a lightweight feel, is breathable and ensures maximum comfort.

At the same time, the intricate stitching results in a high-quality and modern look. The fabric upholstery on the seat complements the overall look perfectly. The colour and texture of the upholstery can be chosen freely from the Sedus fabric collections.

Backrest upholstery:

Haptic.

The knitted upholstery with 3D stitching is available in four modern shades, all of which underscore the delicate material structure.

Harmonious.

black dot air dovetails seamlessly into the black dot product family which also includes models with classic full upholstery and transparent mesh backrests.

Its the details which ensure a great design.

A draft which combines design and ergonomics.

In addition to the novel 3D knitted upholstery, AIR KNIT, black dot air features numerous intelligent details for a wonderfully comfortable sitting experience. First and foremost, the well-known backrest suspension which supports black dot air users in all movements and directions. This unique sitting experience is rounded off by numerous ergonomic functions which facilitate healthy and dynamic sitting.

Features with added value.

Ergonomic.

The flexible suspension of the backrest provides pleasant support for the back, even during turning and side movements.

Adjustable.

Depending on body size, the sliding seat can be moved up to 60 mm.

Groundbreaking.

In addition to height-adjustable armrests, 4D armrests are optionally available which can be intuitively adjusted in all directions.

Comfortable.

The knitted upholstery offers high seating comfort and bribes with a refined 3D quilting, which gives a pleasant haptics with an innovative look.

Beneficial.

The lumbar support is height adjustable and is also available with optional depth adjustment.

Supportive.

The backrest can be optionally fitted with a head and neck rest as well as a clothes hanger.
