Description:

The clean lines and the simplicity of the design is striking, but a closer look reveals a number of design details that gives BASEL a very unique character. The lines of the seat are a fusion of several geometrical shapes that results in the unique shape of the seat that is both tight and soft at the same time. The characteristic backrest works as an integrated and discrete armrest and is an advanced 3-dimensional design element in spite of its minimalistic look. The visible separation between back and seat makes it possible to mix colours and materials and allows the interior designer to work with BASEL in all kinds of environments.

Year of design: 2017

Design: busk+hertzog

busk+hertzog was established in Denmark in 2000 by Flemming Busk and Stephan Hertzog, and their successful studio, today located in Lisbon Portugal, has won more than 75 of the most prestigious international design awards, including Red Dot Award - Best of Best, IF Awards and Good Design Awards. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with mini-mal embellishment, and they often get their inspiration from shapes and lines found in nature.

Flemming Busk has worked with SOFTLINE since 1999, where he won our idea competition with his simple yet brilliant sofa bed SLEEP. He has also specially designed, among other things, the HELLO chair for the world-famous pop star Kylie Minogue.
